

## The Next Level of Jib Versatility

**Exceptional configuration compatibility.  
Improved transportability. Helps you work safely.**

Get the coverage you need with this versatile new fall protection system. Available in both the M100 and M200 Series, the 3M™ DBI-SALA® Flexiguard™ Modular Jib System features a simplified design that enhances worker safety in multiple applications. Increased rail-length configurations improve working coverage while a new design facilitates easier system transport.
